

7th European conference on Silicon Carbide and Related Materials ECSCRM2008

7th-11th September 2008
Auditori Winterthur, **BARCELONA**, Catalonia, Spain

EXHIBITION

ECSCRM2008 is an International Conference attracting a wide range of Industrial and Academic researchers and decision makers in the fields of SiC and related material research and development. The number of attendant to ECSCRM2008 is expected to be around 450, coming from Europe, America and Asia. In previous conference, number of registered participants was 420 among which 249 were coming from Europe and Russia, 80 from America (mainly USA), 91 from Asia (mainly Japan). This conference is a great opportunity from one side to reach a large number of researchers from different speciality such as material growth, processing, physical characterisation, electrical characterisation, devices end users, systems developers.

Consequently, an exhibition will be held during the conference to offer the attendants the possibility to access to the last novelties in term of related commercial products, ranging from materials to characterisation equipments, and also covering processing equipments and materials, characterisation services, electronic components and systems, etc.
